

ACKNOWLEDGEMENT

Any achievement, be it scholastic or otherwise does not depend solely on the individual efforts but on the guidance, encouragement and cooperation of intellectuals, elders and friends. A number of personalities, in their own capacities have helped me in carrying out this project work. I would like to take this opportunity to thank them all.

I would like to thank **Dr. M R Dorswamy** Founder chairman PES Institutions, **Prof. D Jawahar**, CEO, PES Institutions, **Dr. K.N Balasubramanya Murthy**, Director PES Institutions and **Dr. K S SRIDHAR** Principal, PES Institute of Technology, Bengaluru, for their timely advice on the academics and regular assistance throughout my work.

I would like to express my sincere gratitude to **Dr. Shylaja S S**, Professor and Head, Department of ISE, PESIT and **Prof. Nitin V Pujari**, Professor and Head, Department of CSE, PESIT Bengaluru whose contribution to the success of the project has been immense.

I am deeply appreciative of the valuable suggestions given at various stages during the course of the effects by my guide, **Prof. Vinay.A**, Professor, Department of ISE, PESIT, Bengaluru. I am grateful for his help in the preparation of this manuscript. I also express my thanks to the examining committee for their valuable suggestions.

I extend my thanks to the Project coordinator, **Prof. V R Bhadri Prasad**, Professor and Project coordinator, Department of Computer Sciecne and Engineering and **Prof Mamatha H R**, Professor and Project coordinator Department of Information Science and Engineering, PESIT, Bangalore for helping with all the logistic support during the entire BE program.

I also extend my sense of gratitude and sincere thanks to all the faculty members of Department of ISE and Department of CSE, PESIT, Bengaluru, for their constant encouragement and support.

Finally I thank my parents and friends for their moral support.

ABSTRACT

TABLE OF CONTENTS

Chapter No	Page No
1	Introduction.....1
1.1	Purpose.....2
1.2	Motivation.....2
1.3	Problem Statement.....2
2	Literature Survey.....4
2.1	Biometrics.....4
2.1.1	Types of Biometrics.....4
2.2	Image Processing.....5
2.3	Computer Vision.....6
2.4	Facial Recognition.....7
2.5	Face Identification.....8
2.5.1	Face Identification Technique.....10
2.6	Bag of words Model.....10
2.7	Feature Detector.....12
2.8	Feature Descriptor.....12
2.9	SIFT.....12
2.10	SURF.....13
2.11	Descriptor matching.....14
2.12	OpenCV.....15
2.13	Limitations of Image Processing.....15
3	System Requirement Specification.....17
3.1	Scope.....17
3.2	Hardware Requirement.....17
3.3	Software Requirement.....18
3.4	General Description.....18
3.4.1	Product Perspective.....18
3.4.2	User characteristics.....18
3.4.3	General constraints.....19
3.4.4	Assumptions.....19
3.5	Specific Requirements.....19
3.6	Functional Requirements.....19
3.7	Non Functional Requirements.....19
3.7.1	Software quality attributes.....20
3.8	Gantt chart20
4	System Design.....21
4.1	Block diagram.....21
4.2	Architectural Diagram.....22
4.3	Use case Diagram.....23
5	Detailed Design.....24

6	Implementation.....	30
6.1	Programming Language.....	30
6.2	Selection of Platform.....	30
6.2.1	OpenCV.....	31
6.2.2	Microsoft visual studio 2013.....	31
6.3	Algorithms.....	32
7	Experiment results on dataset.....	36
7.1	Dataset Detail.....	36
7.2	Experimental results.....	39

LIST OF TABLES

Table 6.1:	Steps in SIFT.....	32
Table 6.2:	Steps in SURF.....	33
Table 6.3:	Steps in BOW SIFT.....	34
Table 6.4:	Steps in BOW SURF.....	35
